Our Philosophy

Children's learning involves many factors. We feel that the following are effective components in teaching preschool children.

- ◆ Qualified Teachers
- ◆ Child focused teaching through play experiences
- ◆ A stimulating environment that periodically changes to spark interest and reinforce learning themes.
- ◆ A planned set of activities is crucial to a quality program. A comprehensive curriculum that features age appropriate learning experiences gives children order, security and assures the child's developmental needs are being met.
- ◆ A daily schedule that includes a balance of quiet and active experience to prevent over stimulation or boredom.
- ◆ The schedule also includes a balance of teacher directed and child chosen activities so the child has freedom to be an individual but also must learn to work in a group situation.
- ◆ The children, the program, and teaching staff are continually assessed to ensure a quality program that is meeting all of the children's needs.

OTHER PRODUCTS:

KINDERGARTEN READINESS LEARNING BAGS

We have offered fun learning play games to our students for 25 years. Lisa has gathered the age appropriate games and materials together into a convenient bag for parents to play with their children at home. They are kid tested and teacher approved. The instructional booklet and materials will keep your child busy for hours and prepare him for kindergarten. Your child will think he is just playing but you will know he is learning. We have busy bags for learning:

**Shapes Colors Numeracy
Literacy Motor Development**

The 1st bag is \$20 each and
Supplemental purchases \$15 each
